## JAMESTOWN DISCOVERY

LIMITED EDITION SERIES

BY DALE GLASGOW

I am pleased to share with you a view back in time to the birth of our country. The first of my Jamestown Discovery Series depicts the Jamestown landing on the early morning of May 14th, 1607. This painting shows the ships and explorers landing, and setting up a cross to claim the land for England's King James. The ships – the Discovery, the Godspeed, the Susan Constant along with a small boat called the shallop – are all shown in the painting. Call to reserve your prints for this limited time (540) 286-2539.
